Hope FOR Minds

SUPPORTING KIDS AFTER BRAIN INJURY

One Hub.

Endless Hope.

How Hope for Minds is transforming the way families navigate pediatric brain injury from diagnosis to long-term support.

Powered by Hawkeye Health

Who We Are

Hope FOR Minds
SUPPORTING KIDS AFTER BRAIN INJURY

Our Mission

To enrich the lives of children with brain injuries and bring **hope** to their families through support and education.

Comprehensive Care

At the heart of our services is the belief that the **health and well-being of these children can improve** over time when they're **given access to the necessary support.** We also understand the effects of brain injury touch the entire family. Our services extend beyond the child with the head injury, **providing care and support for the parents and siblings as well.**

A Lifelong Journey

What sets Hope for Minds apart is our ability to walk alongside families for the lifelong journey of brain injury. **The impact of brain injury often lasts a lifetime, and we pride ourselves on sticking around for the long haul.**

Family Support Services Team

Our Family Support Services Team, led by Ruby Sanchez, provides individualized support and care for over 1,000 families, representing over **7,000 individuals** navigating pediatric brain injury.

The Hope for Minds Hub empowers our small team to **provide personalized care and support while keeping up with our growing community.**

Ruby Sanchez, LMSW
Director of Family Support

Natalie Proshek, LCSW
Mental Health &
Support Services Specialist

Hannah Fallgren
Family Support Coordinator

Overview of the Hub

Navigate.

The Hope for Minds Hub allows you to stay up to-date with announcements, request critical services, receive personalized education resources, and solve for every day needs as they arise.

Connect.

Within the Hub, you can directly message Hope for Minds, connect with peers, and keep track of Hope for Minds support groups and appointments.

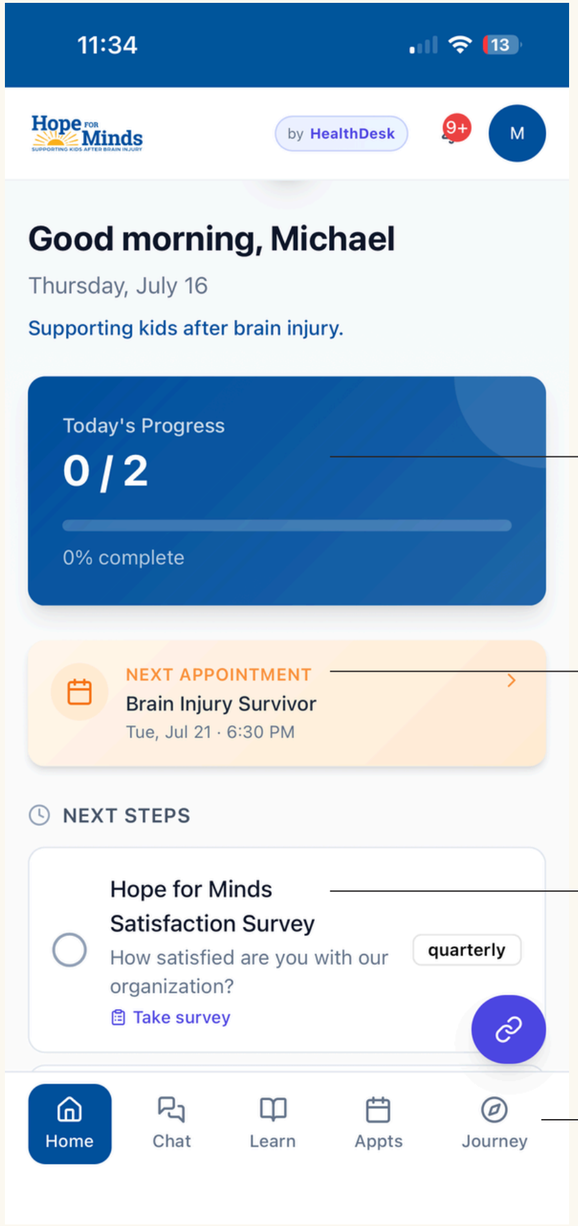

POWERED BY HEALTHDESK

We have partnered with HealthDesk to bring the Hub to families nationwide.

IMPACT OF THE HUB

Any day, any time, the Hub ensures no family is ever without needed support.

Features of the Hub

Home Page:

Quickly access resources and connect with support.

Encourage Engagement

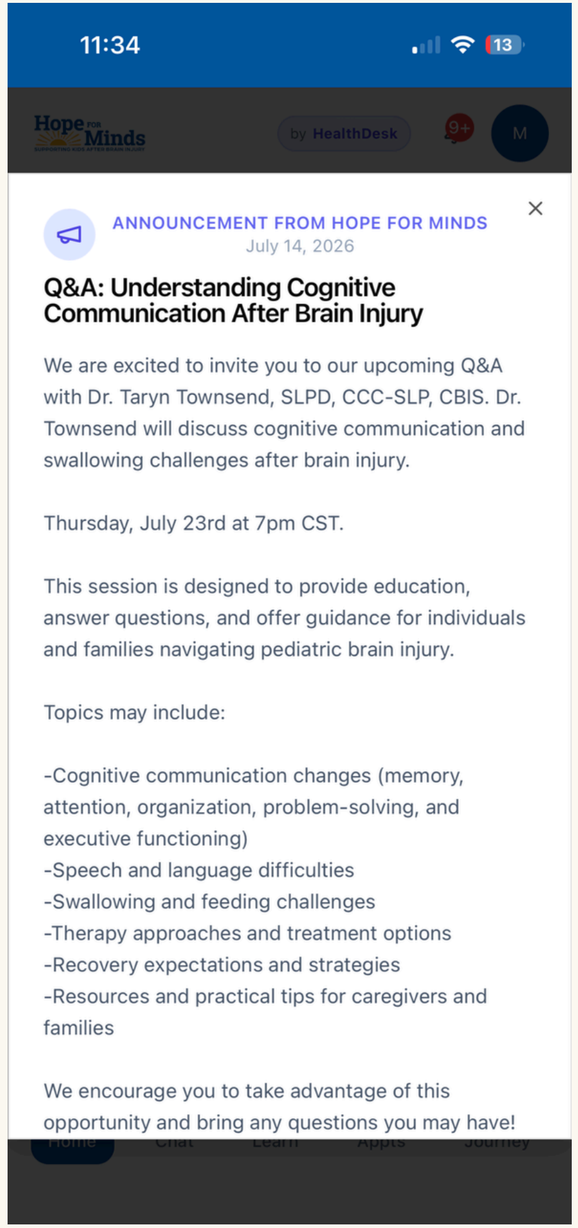

Hope for Minds Support Group Reminders

Measuring Outcomes for Improvement

Easily navigate through the app's features

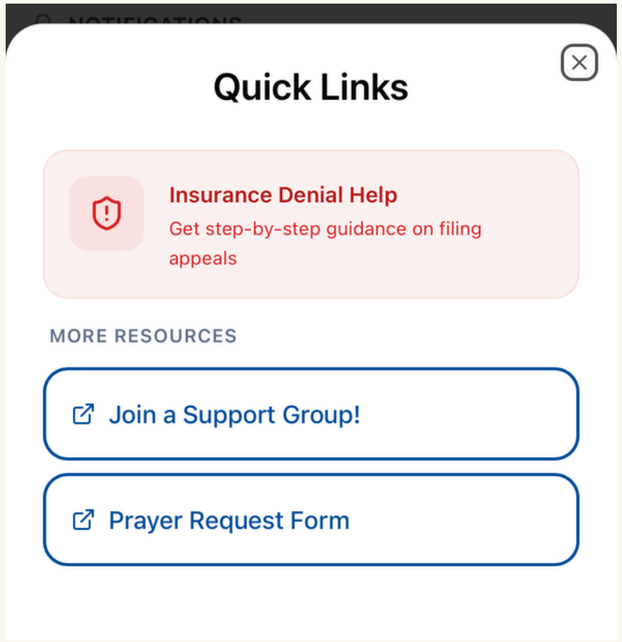

Announcements:

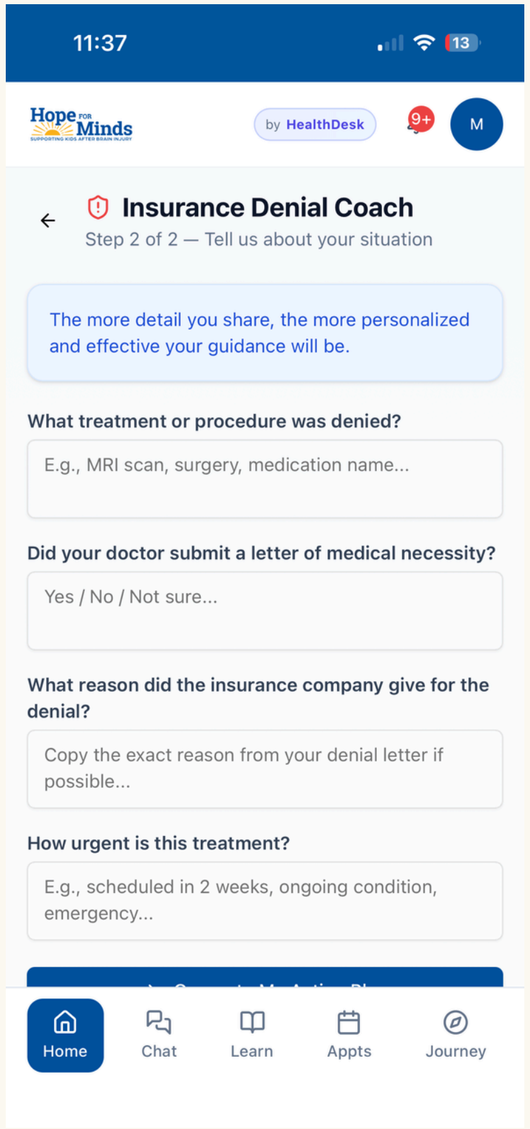

Never miss critical announcements or updates.

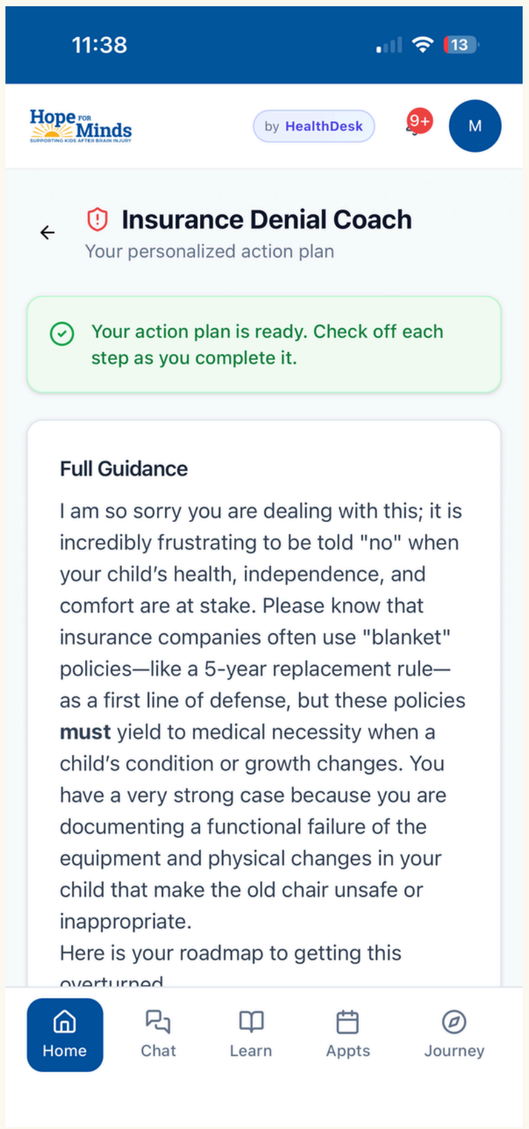

Powerful Tools:

AI tool provides support in navigating a claim denial - a pivotal resource for this community.

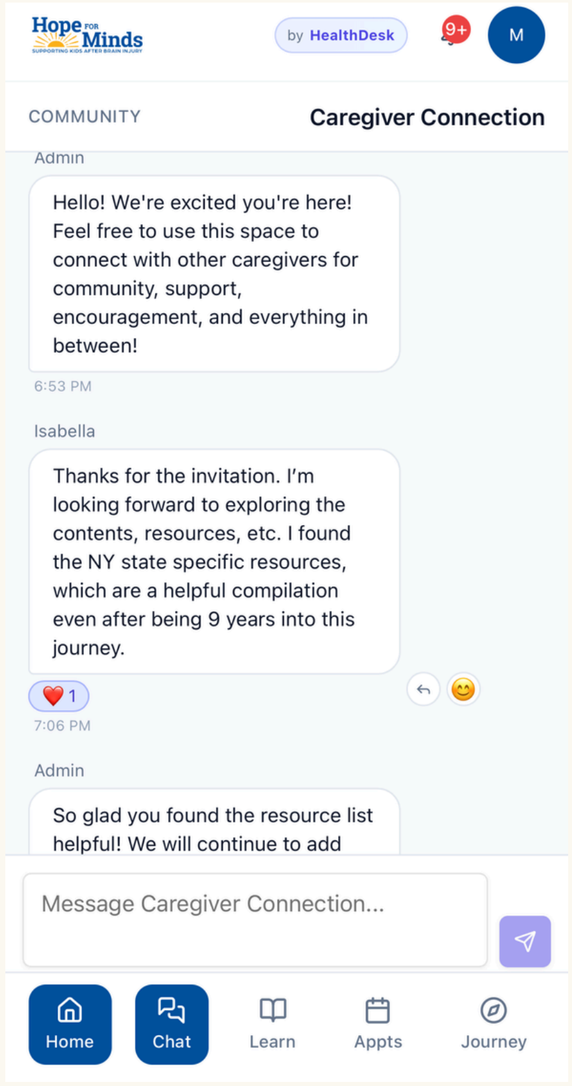

Walking families through insurance denials is a highly personalized, case-by-case service that requires significant time and attention. Much of our family support team's day is spent navigating paperwork, documentation, and administrative tasks behind the scenes.

By streamlining those processes, this tool gives our team more time to do what matters most: be present with families, provide emotional support, answer questions, and walk alongside them during some of the hardest moments of their lives.

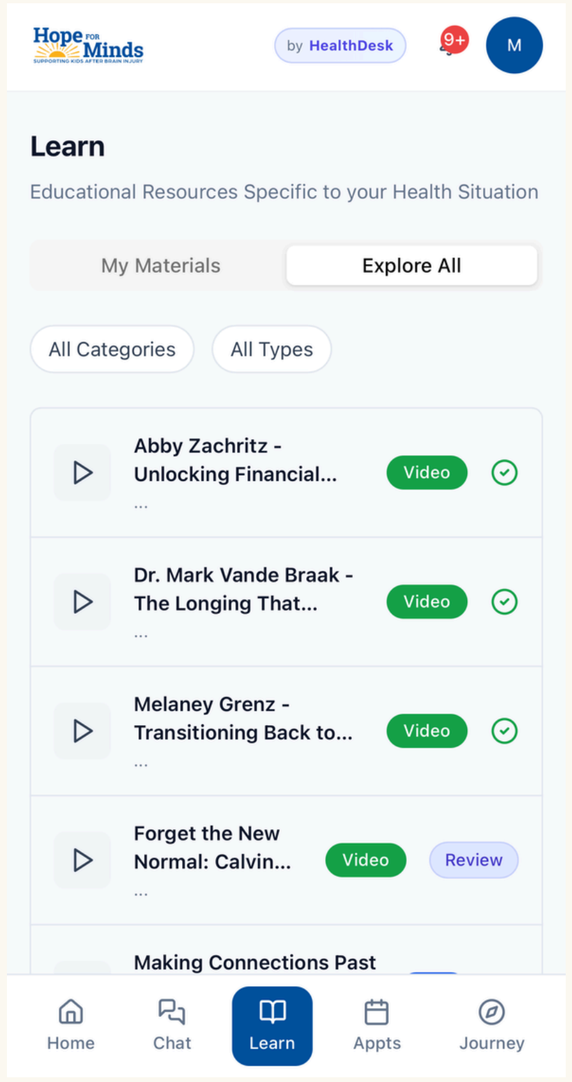

Chat

Message with other families or ask a question direct to Hope for Minds

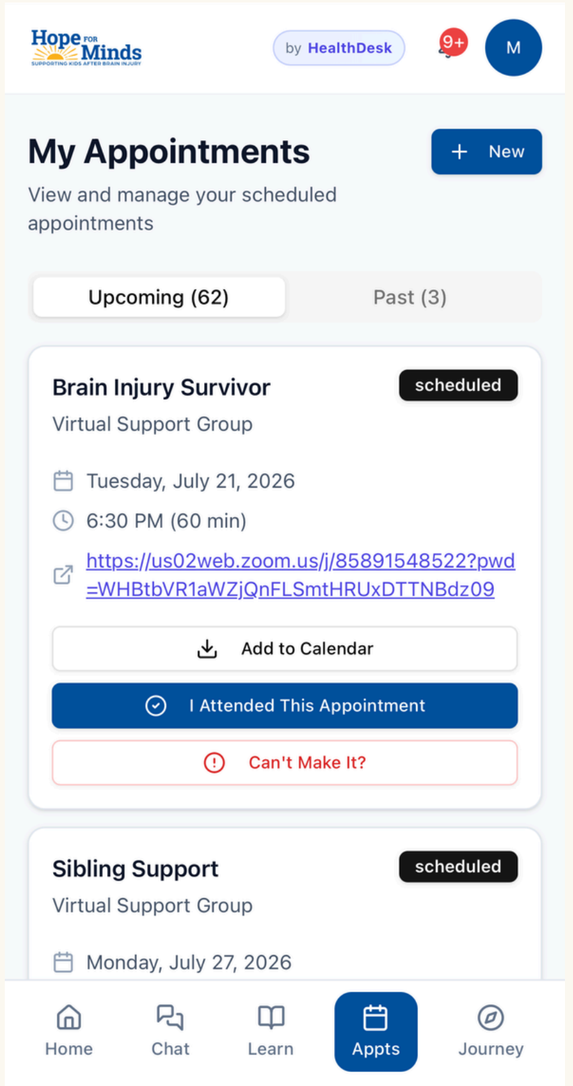

Learn

Explore personalized videos, resources, and community references

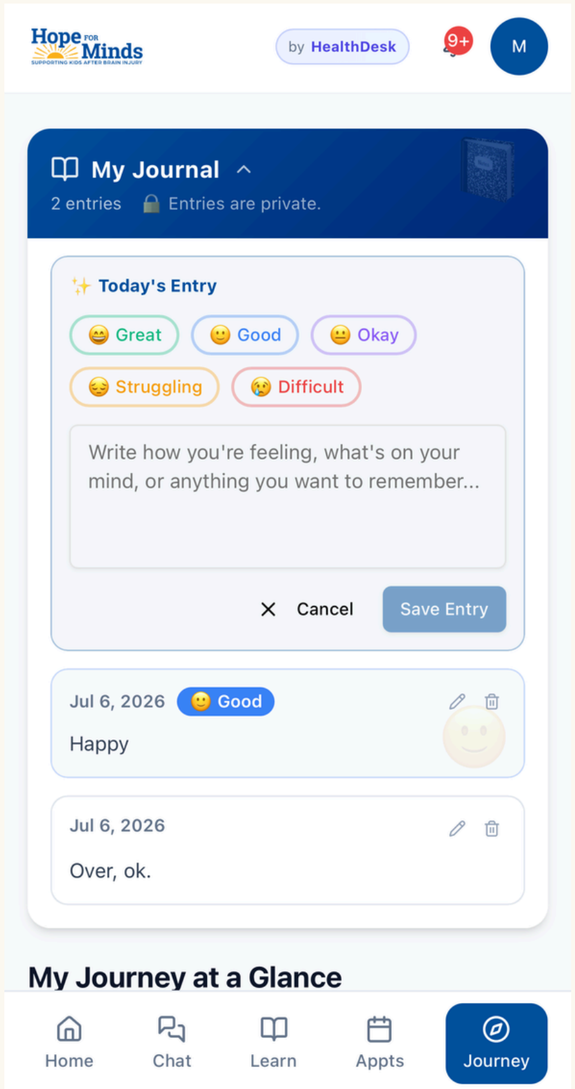

Meet

Keep track of support groups or individual appointments without having to look through email.

Journal

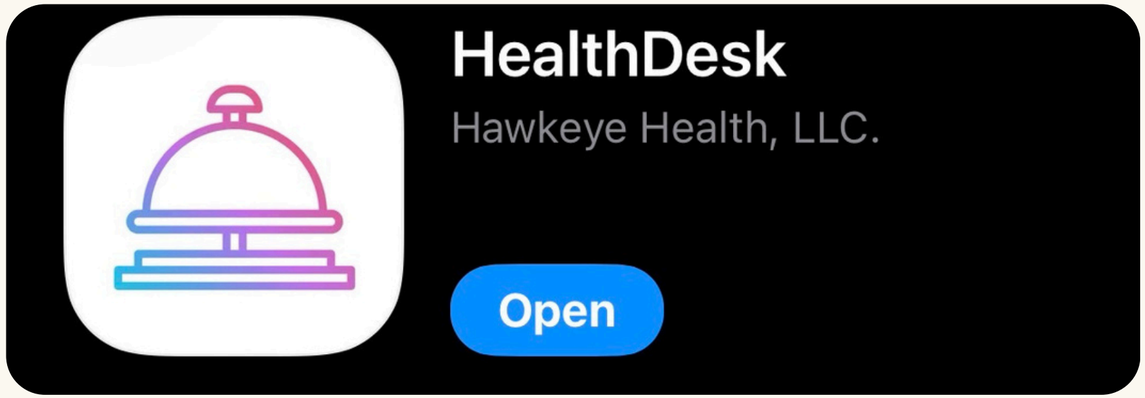

Keep track of thoughts and important reminders in a private journal.

Thank You.

We know this journey can feel overwhelming, and no two families experience it the same way. Our hope is to be a trusted source of support, guidance, and encouragement through every stage of recovery. We're always listening, learning, and finding new ways to better serve families like yours.

Thank you for trusting us and allowing us to walk alongside your family.
