

2027 CORPORATE PARTNERSHIPS

Hope Grows With Partners Like You

STORY & MISSION

A brain injury can change a child's life and an entire family's world in an instant. Families face years of navigating care, finding resources, and managing financial challenges. Hope for Minds grew from the journeys of JD and Luke, whose brain injuries inspired a lasting legacy of support. The work of Hope4JD and Team Luke eventually came together as Hope for Minds, ensuring families have the resources, support, and hope they need.

Our mission is to enrich the lives of children with a brain injury and give hope to their families through support, education, and resources. We believe a child's well-being can improve over time when families have the right resources and the strength that comes from connecting with others who understand. JD and Luke's legacy carries on in every family we serve, so **no family walks this road alone.**

Where Your Partnership Goes

Financial Assistance

Grants and emergency aid for specialized therapies, counseling, adaptive equipment, home and vehicle modifications, and urgent bills like rent and utilities.

Family Support

Weekly support groups for parents, siblings, and caregivers, plus family navigation and connections to resources close to home.

Education & Awareness

Community education events, school programs, and training that equip families, educators, and healthcare professionals.

Making Connections Annual Conference

Every family attends for free, and travel scholarships help them get there.

Families gain education from experts, connect with doctors, specialists, and therapists, and, most importantly, connect with other families living the journey today. Siblings have their own space together to just have fun and play. Every connection means **no family walks this journey alone.**

45 sec Every 45 seconds, a child in the U.S. sustains a brain injury

6,000+

Individuals served across 47 states

**Estimate based on the Brain Injury Association of America's figure of 3.5 million acquired brain injuries in the U.S. each year, applied conservatively to show the population under age 20 (about 1 in 5). The CDC reports that more than 625,000 children and teens are treated in hospitals and emergency departments each year for traumatic brain injuries.

Your Partnership Makes These Possible

Every family's journey is different. Your partnership helps Hope for Minds respond to each child's unique needs through services such as:

- **Specialized Therapies**

Physical, occupational, speech, vision, behavioral, and other specialized therapies that improve function, independence, and quality of life

- **Innovative Treatments**

Access to innovative treatments, such as hyperbaric oxygen therapy, when recommended by a child's care team.

- **Home & Vehicle Modifications**

Safer and more accessible homes and vehicles that support a child's independence and daily living.

- **Specialized Counseling**

Support for caregivers, siblings, and couples as they navigate the emotional impact of a brain injury, strengthening the whole family.

- **Adaptive Equipment**

Adaptive bikes, wheelchairs, communication devices, and other tools that promote mobility, confidence, inclusion, and independence.

- **Emergency Assistance**

Immediate help with housing, utilities, transportation, groceries, and medical costs, so families can stay focused on their child during a crisis.

The connections I made and shared with other families was great. We were able to get plugged in with a pediatric rehabilitation therapist here in New Orleans. This was our first conference, but I'm ready for the next.

THE JEFFERSON FAMILY

Partnership Levels

Our partners range from healthcare and therapy providers to banks, builders, and local businesses. Every level includes website recognition, a social media announcement, and a Proud Partner badge for your own website and marketing. Newsletter recognition includes a clickable link and your logo. [Ask us how your employees' gifts can be matched.](#)
